ABSTRACT

This statistical summary presents data on the library collections, interlibrary loans, expenditures, personnel, and Ph.D. programs from the 99 university and non-university members of the Association of Research Libraries (ARL). A separate table describes microform holdings by type. Member libraries are rank ordered on the following 13 factors: volumes in library, volumes added, microform holdings, current periodicals, professional staff, nonprofessional staff, total staff, materials expenditures, materials and bindings expenditures, salaries and wages, total expenditures, total items loaned, and total items borrowed. * Documents acquired by ERIC include many informal unpublished *

INTRODUCTION

Statistics for the 99 members of the Association of Research Libraries are presented in this report. The 99 institutions include 88 university libraries (6 of which became Association members in 1974/75) and 11 nonuniversity libraries which are included in the report for the first time this year. The ARL statistical compilations published from 1963-1964 through 1973-1974 are entitled Academic Library Statistics; the new title reflects the expansion in coverage.

With the inclusion of figures for the nonuniversity ARL members, for the first time we have statistical information on the total resources of the nation's largest research libraries:

217,000,000	volumes in the collections
9,000,000	volumes added last year
2,500,000	current serials received
34,000	employees
11,000	professional librarians
$522,000,000	total operating expenditures

While each ARL library is important and distinctive, viewed collectively the libraries belonging to the Association constitute a national resource of inestimable value.

We are pleased to be able to publish this statistical compilation, which documents in quantitative terms the capacity of ARL member libraries to provide the information services needed by the research community.

GUIDE TO LIBRARY CODE NUMBERS

The institutions listed below are the 99 institutions who were members of the ARL in 1975. Each has been assigned a code number which has been used on the charts on pages 4-13 in place of the names of the institutions. (See columns labelled "Library Code No." to the left of columns 1 and 12). Numbers 1-88 have been used to designate the 88 university library members of the Association. Numbers 89-99 designate the 11 nonuniversity members.

SUMMARY OF RANK ORDER TABLES FOR UNIVERSITY LIBRARIES

The table below presents for each university library its rankings in each of the categories for which rank order tables are prepared. In additional to these rankings, note in the individual rank order tables on page 19-31 group codes are used. This is done because in a number of cases there is a relatively insignificant difference between two institutions (which are nevertheless given two different rankings), and it was decided that a "coarser" ranking of institutions was desirable. Therefore, in addition to the individual rankings, institutions are clustered into groups according to ranges. The number of libraries within each group is then presented graphically to illustrate the distribution of libraries among the groups.

The table numbers below refer to the following categories:

Table 1 - Volumes in Library
Table 2 - Volumes Added (Gross)
Table 3 - Total Microform Holdings
Table 4 - Current Periodicals/Serials
Table 5 - Professional Staff (FTE)
Table 6 - Nonprofessional Staff (FTE)
Table 7 - Total Staff (FTE)
Table 8 - Materials Expenditures
Table 9 - Materials & Binding Expenditures
Table 10 - Salaries & Wages Expenditures
Table 11 - Total Expenditures
Table 12 - Total Items Loaned
Table 13 - Total Items Borrowed

INSTRUCTIONS FOR COMPLETION OF THE QUESTIONNAIRE

FOR

ARL STATISTICS 1974-1975

1. Definitions of the statistical categories used in this questionnaire can be found in Library Statistics: A Handbook of Concepts, Definitions and Terminology (Chicago: American Library Association, 1966).

2. Because of the number of questions raised regarding the counting of periodicals, we again called to your attention the definition of a periodical (item 6) recommended by the Committee on Statistics and approved by the membership:

   Periodicals: Publications constituting one issue in a continuous series under the same title published at regular or irregular intervals, over an indefinite period, individual issues in the series being numbered consecutively or each issue being dated. Newspapers as well as publications appearing annually or less frequently are included in the definition.

3. The number of FTE student assistants (item 14) should be determined on the basis of the length of the work week in the reporting library.

4. Those libraries whose reports include figures for branch campus libraries are asked to indicate this fact in a footnote.

5. Please note that only the number of Ph.D degrees awarded (item 22) are to be counted. Statistics on all other advanced degrees are not required for this survey.

6. With regard to fields in which Ph.Ds are awarded (item 23), reporting libraries should use as a standard the fields listed in the form used by the Department of Health, Education and Welfare in collecting statistics on higher education. The official title of the form is: "Higher Education General Information Survey, Degrees and Other Formal Awards Conferred." It is designated: E Form-2300-2.1. This form is also referred to as the "HEGIS Report."

7. All figures should be rounded off to the nearest whole number.

8. The reporting libraries are urged to note any circumstance that would clarify the figures submitted. A second sheet is provided for indication of explanatory footnotes which will be included with the published statistics.

9. After the questionnaire has been completed, please compare the statistics with those submitted last year. On occasion, an error will be detected because of an unusual difference between the figures submitted this year and those for the preceding year.

10. Please return one copy of the questionnaire to the ARL Office by October 1, 1975. If there are any questions about the procedure to be followed in completing this questionnaire, please contact the ARL Office.
